

Technical Data

Pilot XD

Light headset for Pilots in the cockpit

- lightweight binaural headset for Pilots in planes with low noise
- resistant leatherette ear cushions provide slight noise insulation
- high wearing comfort
- optional Spacer-Distance-Clips
- operation with all common aircraft radios because of its variety of connectors

Technical data

Microphone

Directional: noise cancelling (NC)
 Impedance: 150 Ohm
 Sensivity: -10 dB V / Pa, 1 kHz
 Frequency range: 150 Hz – 8 kHz
 Pattern: electret (amplified)

Additional Data

Weight: 135 g (incl. coiled cord and plug)
 Operation voltage: 8 – 14 V
 Temperature range: -20°C to +70°C
Speaker
 Sound pressure level: max. 115 dB

Frequency range: 150 Hz – 12 kHz
 Pattern: dynamic
 Impedance: 150 Ohm at 1 mW / 1 kHz
Additional data
 Power input: approx. 10 mA
